Professional Summary

Full-Stack Developer with hands-on experience in the PERN stack. Skilled in building responsive web applications, developing RESTful APIs, implementing authentication and authorization, and managing relational databases. Proficient in modern frontend development with Tailwind CSS and Bootstrap, with experience using Git and GitHub for version control. Seeking an opportunity to contribute to real-world software development and build scalable web applications.

Technical Skill

Frontend

- HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Tailwind CSS

Backend

- Node.js, Express.js

Database

- PostgreSQL

Tools & Version Control

- Git, GitHub, VS Code

Projects

PERN Authentication App

[GitHub](#)

React · Node.js · Express.js · PostgreSQL · JWT · Bcrypt · Tailwind CSS

- Built a full-stack authentication system with secure user registration and login using the PERN stack
- Implemented JWT-based authentication and Bcrypt password hashing for data security
- Developed RESTful APIs with Node.js and Express.js for backend logic
- Designed a responsive UI with React and Tailwind CSS, using Axios for API communication

ShopStack (E-Commerce Product Management System)

[Live Demo](#) | [GitHub](#)

React · Node.js · Express.js · PostgreSQL (Neon) · Zustand · Tailwind CSS

- Built a full-stack product management system with complete CRUD operation for managing products
- Developed RESTful APIs using Node.js and Express.js for product data handling with structured architecture
- Designed relational PostgreSQL database (Neon) with relational schema for scalable product storage
- Build a responsive frontend using React, Zustand and Tailwind CSS with real time UI synchronization

Education

B.SC in Computer Science, CGPA - 6.4

Arulmigu Kalasalingam College Of Arts and Science, Krishnankoil, 626-126, Virudhunagar.
